**Abbreviations:**

**a:** Refers to non-partner violence only (excludes violence perpetrated by intimate partners)

**b:** Includes forms of emotional violence in addition to physical and/or sexual violence.

**c:** Refers to spousal violence only and lifetime rates refer to the past five years.

**\*:** Additional prevalence survey data available for the country which is not reflected in matrix.

**RHS:** Centers for Disease Control and Prevention, International Reproductive Health Surveys: Reports, Publications, and Datasets (available at: <http://www.healthmetricsandevaluation.org/ghdx/series/reproductive-health-survey-rhs>)

**DHS:** The Demographic and Health Surveys, Domestic Violence Module country reports (available at: <http://www.measuredhs.com/publications/publication-search.cfm?type=5>) and Kishor, S. and K. Johnson. 2004. *Profiling domestic violence: A multi-country study*. ORC Macro, Calverton.

**IVAWS:** Johnson, H. Ollus, N. and Nevala, S. 2008. *Violence Against Women: An International Perspective*. Springer Science+Business Media, LLC, New York.

**Other:** Other population-based surveys with findings publicly available through November 2012.

**WHO:** García-Moreno, C., Jansen, H., Ellsberg, M., Heise, L. and C. Watts. 2005. *WHO Multi-Country Study on Women's Health and Domestic Violence against Women: Initial Results on Prevalence, Health Outcomes and Women's Responses*. World Health Organization, Geneva.

**Note:** Data points are organized into the most fitting indicator category, but may not be comparable across countries given methodological differences in survey instruments. Any analysis of the data points above should be based on review of original references (see below) and data points therein.
